

IMPORTANT UPDATE REGARDING TURNING POINTS: AN EVENING TO BENEFIT MSPCC

MSPCC's mission is dedicated to the health and well-being of children and families, and that includes our family of supporters.

We have been closely monitoring COVID-19 developments and out of an abundance of caution have decided not to hold our annual dinner, Turning Points, on April 2nd. We will miss the opportunity to share the important work of MSPCC with you, but know it is the best decision.

Our work with children and families in communities across Massachusetts remains our priority. The support, compassion and skills our dedicated staff bring to the children and families we serve will be critical during these uncertain times and offers the best hope that our children will be safe and healthy.

Your continued support of MSPCC helps to make that possible. Thank you.
