

ONLINE SUPPORT GROUPS

Do you want to connect with other parents from your area or who are having similar parenting experiences?

OVERVIEW & PURPOSE

These virtual versions of our in-person support groups are designed for foster, kinship, and pre-adoptive parents to connect with one another and offer support. A facilitator will lead these groups and keep them on track, however, there is no set curriculum. Participants can offer suggestions and support to others.

If no date is listed, please reach out to the facilitator for more information.
